

TA #1 – Taxation – Move Maximum Wage Bill Endorsement to Taxation Plank
Hugh Esco (Fulton County, [REDACTED]) offers the following:

Amend the Platform of the Georgia Green Party, in the chapter on Global Population, by moving plank 3 “Minimize income disparity” of the Global Population chapter to new plank 9 “Maximum Wage Bill Endorsement” in the Taxation chapter.

39. ~~Minimize income disparity.~~Maximum Wage Bill Endorsement

Higher standards of living usually correspond with lower birth rates. We endorse the maximum wage bill proposed by United for a Fair Economy, which would cap the deductibility from corporate taxable income of employee or contractor compensation which exceeds twenty-five times the annualized wages or salary of the lowest paid employee or contractor in a firm. It's time we stopped using our tax dollars to subsidize corporate behavior which has led to such great income disparities. No other mechanism is more apt to encourage responsible corporate behavior than creating this economic incentive.
