Resolved by the
Annual Convention of the
Georgia Green Party

Section 1.

Resolved, that the Platform of the Georgia Green Party, is amended, in its plank related to Democracy, by striking paragraph 2. related to Democratically Finance(d) Elections, in its entirety and inserting in its place, a new paragraph 2., to read:

2. Democratically Finance Elections

We must provide public financing of election campaigns so that a candidate's meaningful access to the electoral system is not determined by money; and where candidate viability is determined by their appeal to the electorate not their appeal to wealthy contributors. Prohibit the use of private money in public elections. We support a federal Constitutional amendment, the We the People Amendment, to make clear that corporations are not people, that money is not speech and that states may regulate the financing of campaigns in public elections. We will seek reforms to laws governing the chartering of corporations in the state, prohibiting the expenditure of corporate funds to finance political campaigns.
